

## Keeping Me Alive

Fireflight

I don't trust you to save me  
At least I never wanted to  
So I dare you to love me  
When I can't even love myself  
'Cause I don't want to feel you  
Try to break through to me

Oh, I know I've done it to myself  
I see that you're the only one left  
Who wants to stay by my side  
Your love is keeping me alive

This is brand new to let go  
The fear that I've rehearsed so long  
And how'd you undo, tear down  
The home I've made of my disease  
And now I need to feel you, hear you  
Break through to me  
Need to feel you break through to me
