

## Stand Up

## Fireflight

Look at all the lonely hearts  
Shivering out in the dark  
Hiding from the truth  
Cover up the proof  
Demons that I've tried to hide  
Imprison me in my own lies  
And all that I can do is cover up the proof  
Don't be afraid to...

Stand up!  
Stand up if you're broken  
Stand up!  
Stand up if you feel ashamed  
You are not alone when you hurt this way  
Stand up!  
Stand up if you need love  
Stand up!  
This is not judgment day  
You don't have to hide  
There's no need to run  
Everything will be okay

Secrets got me torn apart  
Trying to destroy my heart  
But I can see the light  
It's cutting through the night  
Don't run away  
(Don't run away)  
Don't be afraid to...

You say You love me  
That's all I'll ever need  
If You say I'm good enough  
That's good enough for me

Stand up!  
Stand up if you're broken  
Stand up!  
Stand up if you feel ashamed
