

Star Of The Show

Fireflight

I lost my way home
Looking at myself
Searching for nothing
I knew all along where I belong
Everyday I stand in the light
I can take the stage
But You are the one
You give me the love

You know what You are
You're the star of the show
Cuz you are the one
I cannot breathe in, without a reason
You're the star
I'm coming home now
Closer to you
You show me the way
You turn me into
Something that's new

You know what You are
You're the star of the show
Cuz you are the one
I cannot breathe in, without a reason
You're the star
I thought that I knew You
But I was only pushing You away
Now I can hear you
I'll listen to every word you say

You know what You are
You're the star of the show
Cuz you are the one
I cannot breathe in, without a reason
You're the star
