Boom boom boom
Straight from my heart
There you go- it's not falling apart
Cross the ocean where the water runs wild
Cause you are on my radio
Tell, tell me that this can't go wrong
Let's climb over
My eyes'll reach the sun
Blow blue smoke into the cold
Cause you are on my radio
And I am on my way up

Baby, baby, stay strong
Soon most of us will be gone.
Baby, baby, sail on
To a place where the wind still talks.
Can you hear the drum?
Can you hear the drum?
Beat, go, boom boom boom boom boom
Beating louder than words.

Boom boom boom
Straight from my heart.
There you go it's not falling apart.
Make your lungs heave with belief
Cause I am on my way up.
Take, take your time to find a way
Follow the sound and the beat is strong
Boom boom boom
Straight from my heart.
Cause I am on your radio.
And I am on my way up.

Baby baby stay strong
Soon most of us will be gone.
Baby baby sail on
To a place where the wind still talks.
Can you hear the drum?
Can you hear the drum?
Beat, go boom boom boom boom boom
Beating louder than words.

Waiting this out, waiting it out,
for you, 'cause my heart beats
triple speed when we meet.

Waiting this out, waiting it out,
for you, 'cause my heart beats
triple speed when we meet.

Waiting this out, waiting it out,
for you, 'cause my heart beats
triple speed when we meet.

Waiting this out, waiting it out,
for you, 'cause my heart beats

triple speed when we meet.

Baby baby stay strong
Soon most of us will be gone
Baby baby sail on
To a place where the wind still talks
Baby baby stay strong
Soon most of us will be gone
Baby baby stay long
To a place where the wind still talks
Can you hear the drum can you hear the drum
Beat go boom boom boom boom boom
Beating louder than words.

Boom boom boom boom ...
