

Don't Fade On Me

Firehouse

Look at our love
It's like a picture book of memories
and we don't know how the story ends

When we were young
We lived each chapter of our lives
and through it all
We stayed the best of friends

Darlin' turn back the pages
and remember yesterday
And mark the place inside your heart
Don't close the book and let our story end this way
When times get hard oh you know
I need you to be strong

Baby don't you fade on me
We've been together so long
and now you're a part of me
We've been side by side through thick and thin
can't throw all that away
You've got to hang on
baby don't you fade on me

Take a look at us now
We've traveled every road together
but we don't know where the journey's done

Just when we think we've reached
the final destination
We come to find we've only just begun
Darlin' you're never lost if you just
let love find the way
When times get hard and you know
I need you to be strong

Baby don't you fade on me
We've been together so long
and now you're a part of me
We've been side by side through thick and thin
can't throw all that away
You've got to hang on baby don't you fade on me

Baby don't you fade on me
We've been together so long
and now you're a part of me
We've been side by side through thick and thin
can't throw all that away
You've got to hang on don't you fade
Baby don't make that mistake
Don't you fade on me
