

# Don't Fade On Me

Firehouse

Look at our love  
It's like a picture book of memories  
and we don't know how the story ends

When we were young  
We lived each chapter of our lives  
and through it all  
We stayed the best of friends

Darlin' turn back the pages  
and remember yesterday  
And mark the place inside your heart  
Don't close the book and let our story end this way  
When times get hard oh you know  
I need you to be strong

Baby don't you fade on me  
We've been together so long  
and now you're a part of me  
We've been side by side through thick and thin  
can't throw all that away  
You've got to hang on  
baby don't you fade on me

Take a look at us now  
We've traveled every road together  
but we don't know where the journey's done

Just when we think we've reached  
the final destination  
We come to find we've only just begun  
Darlin' you're never lost if you just  
let love find the way  
When times get hard and you know  
I need you to be strong

Baby don't you fade on me  
We've been together so long  
and now you're a part of me  
We've been side by side through thick and thin  
can't throw all that away  
You've got to hang on baby don't you fade on me

Baby don't you fade on me  
We've been together so long  
and now you're a part of me  
We've been side by side through thick and thin  
can't throw all that away  
You've got to hang on don't you fade  
Baby don't make that mistake  
Don't you fade on me
