

# Home Is Where The Heart Is

Firehouse

Do you remember when we were only kids  
Knew everyone in our neighborhood and swore that we would never  
forget

Well time flies and the years go by, but memories never fade  
I've been gone much too long, gotta get back there someday

But my travelin' days ain't over yet  
And no matter how far away  
There's one thing I can't forget

Home is where the heart is  
But I'm always on the run  
Home is where the heart is  
Though my journey's just begun  
Home's where the heart is

We used to hang out through the day and party all night long  
I never thought I'd go away from the place where I belong  
But here I am on the road again and my love is miles away  
I've been gone much too long, gotta get back there someday

But my travelin' days ain't over yet  
And no matter how far away  
There's one thing I can't forget

No matter how far away  
The one thing I can't forget
