

# Rock You Tonight

Firehouse

Stand up get on you feet  
Just throw your hands in the air  
Feel the beat down in your soul  
Let the rhythm go to your head  
Ya gotta get up, ya gotta make your move  
Ya gotta give it everything that you got  
Make your play, we're going all the way  
Tonight we just can't stop

Come on get ready  
Well if you're ready let's turn down the lights  
Come on get ready  
Oh we're gonna get wild tonight

Oh oh we'll rock you tonight  
We're gonna rock you tonight  
You know it feels good  
You know it feels right  
So we're gonna rock you tonight

On your mark get ready get set  
Come on everybody let's go  
Gonna get wet gonna make you sweat  
Make you lose control  
Gonna turn it on, turn it up, turn it inside out  
Get the groove down in your shoes  
Gonna tear this damn place down

Come on get ready  
Well if you're ready then let's turn down the lights  
Come on get ready  
Oh we're gonna get wild tonight

Oh oh we'll rock you tonight  
We're gonna rock you tonight  
Oh oh we'll rock you tonight  
We're gonna rock you  
We're gonna rock you

Oh oh we'll rock you tonight  
We're gonna rock you tonight  
You know it feels good  
You know it feels right  
So we're gonna rock you  
We're gonna rock you tonight  
Rock you tonight  
Rock you tonight
