

What's Wrong

Firehouse

Brother please don't turn your back on me
I was once just like you but
I've fallen through the cracks of society
Why can't anyone just lend a hand
Doesn't anybody care, doesn't someone understand
We should be ashamed because we lay the blame
Not on ourselves but on this day and age

What's wrong with everybody
Why can't anybody get along
Well I think we've got a problem
We've got to help each other out
or we'll never figure out
What's wrong with everybody

Five o'clock another traffic jam
All lanes merge to one and
it seems like no one gives a damn
Why can't we just let each other in
But we cut each other off
and we just keep on driving

We should be ashamed because we lay the blame
Not on ourselves but on this day and age

What's wrong with everybody
Why can't anybody get along
Well I think we've got a problem
We've got to help each other out
or we'll never figure out
What's wrong with everybody

Why can't everyone just live in peace
Well we've got to pull together
and put an end to this insanity
Why can't everyone just lend a hand
Doesn't anybody care,
doesn't someone give a damn

What's wrong with everybody
Why can't anybody get along
Well I think we've got a problem
We've got to help each other out
or we'll never figure out
What's wrong with everybody
