

## Ambulance

## Fireside

This is not what you love me for  
Will give you a present, actually please you  
Whatever will actually please you

It's funny and sad to look at you these days  
When nothing really matters  
And we're doing our best I guess

I just wanted to know  
Does anybody own you?  
No, I got to pay  
End up broke and worn out

You'll have to do better than  
You'll have to do better than  
Better than, better than that

You'll have to do better than that
