## **Fernandez Must Die**

He's gone away He's so distracted He must be sick in some way well so they say He's already gone home That's why he is all alone Invisable to the eye Hey, three is a crowd I'll see you tomorrow Hey, three is a crowd Stay away until tomorrow

Look at his hair Look at those clothes that he wear Let's pick a fight with him were Everybody can see Let's fool him to come around Then he'll get his face pound He gets on my nerves all the time You fucked up. You're busy on your back Trying out everybody
