

# Heading For The Dawn

Firewind

Gazing at the stars  
We're flying over million restless souls  
A dream that keeps me alive  
We're always reaching higher for the skies

Oooh we're million miles away  
We're far away from home  
We're million miles away  
Oooh we're million miles away  
we're heading for the dawn  
we're million miles away

We turned the bends  
We're crossing all the oceans  
For desire and for pain  
We come and go, we feel  
We're heading for new places that's insane

Oooh we're million miles away  
Our spirit never dies  
We're million miles away  
Oooh we're million miles away  
Our keeper never lies  
we're million miles away
