

# Till the End of Time

Firewind

How do you think we can survive?  
No angels by your side  
This is no dream, it's here and now

How can we make it through the night?  
This demon we must fight  
Visions of hell within my mind

But we must carry on  
Carry on...

Till the end of time - we will stand  
Till the end of time - oh, we lost the spark  
Till the end of time - searching in the dark  
Spirits of the wind - my death command

Time is not a friend of mine  
Today the sun won't shine  
Just a boundless grey fills the sky

Why? No matter how I try  
The beast just won't die  
Is it worth fighting for?

But we must carry on  
Carry on...

Till the end of time - we will stand  
Till the end of time - oh, we lost the spark  
Till the end of time - searching in the dark  
Spirits of the wind - my death command
