

## Summer

## Fireworks

Borrowed  
I think this year has left me borrowed  
Tomorrow I'm waking up the sun  
I'm dragging the lake slow  
Follow this life line of memories  
Tangled by the water side  
That's where my youth drowned  
It fell by the wayside  
I'm not counting the greys on my head  
I'm calling them silver linings instead

It doesn't matter  
We take off our shoes and pull out pieces of the lawn  
While people light off fireworks  
Then they set off car alarms

You will always be the leaf to my tree  
But this year fall came  
And I never saw spring  
It fell by the wayside  
I'll keep my wisdom like a tooth  
I'm spinning in the black hole of youth

It doesn't matter  
We take off our shoes and pull out pieces of the lawn  
While people light off fireworks  
Then they set off car alarms

My mind is trained to  
I want to find dead bodies with my closest friends  
And to long for DC at two AM under Lincoln  
Let's stay close like the monuments  
Carve our names in stone  
Let's stay close like the monuments  
Carve our names in stone

It doesn't matter  
We take off our shoes and pull out pieces of the lawn  
While people light off fireworks  
Then they set off car alarms

My mind is trained to  
I want to find dead bodies with my closest friends  
And to long for DC at two AM under Lincoln  
So let's stay close like the monuments  
Carve our names in stone  
Let's stay close like the monuments  
Carve our names in stone
