

## Parting Of The Ways

Fish

It's strange to find we're almost strangers  
As I turn to leave you now  
I know there are dangers  
You have believed in me  
As I believed in you  
But it's not hard to see  
In the end a man should do  
What his heart tells him he must  
And so I place my trust in the parting of the ways  
The days that I have stood beside you  
They are days that I could not forget if I tried to  
But day has turned to night  
Life's changed for you and me  
Who knows what's wrong or right  
We'll agree to disagree  
Now the time for talk has passed  
And so we reach at last the parting of the ways  
Now I need to find my own direction  
Side by side we faced the world together  
But nothing lasts forever  
And so the story ends  
More than pride's dividing you and I now  
And though we say goodbye now  
At least we part as friends  
It seems our future is decided  
Now the fates dictate that you and I be divided  
And though it's hard to tell  
Where we will go from here  
You know I wish you well  
Even though my course is clear  
It's no easy thing I do  
To walk away from you at the parting of the ways  
Though I need to find my own direction  
You can bet I'll never forget  
The times we've come through  
But now we come to  
The parting of the ways
