

Scotland By Our Side

Fish

As we set out on this journey
Off to face the world's best
The love of this small nation
Gives us strength to face the test
And if pride can bring us glory
We'll be there, when it's handed down,
We will never run or hide
We have Scotland by our side.

Whether here in Scotland
Or on a strangers shore
These aching pangs of longing
Only make us love her more
And to see those banners waving
How it makes us swell with pride
We'll play the game with honour
We have Scotland by our side
We have Scotland by our side

So to France we march our army
We march in football's name
Bathe in the sea of tartan
And watch it lift our game
And even if we falter
We'll raise our banners high
We will never run or hide
We have Scotland by our side
We have Scotland by our side
We have Scotland by our side
