

The Rookie

Fish

It's your decision, it's not up to me, and I've seen it all before
got a wardrobe full of T's,
You got the hunger, you got four-wheel drive, you want to reach
for the heaven want to touch the sky,

You wanna be the big man, you got big plans, big ambitions you
got dreams,
So what's the big idea?
Take my advice keep it simple, keep it real,

So you're the competition, you've made that clear, the new boy
on the block and you got no fear,
When you're at the bottom you can only climb, you might just make
it to the top given time!

You wanna be the big man, you got big plans, big ambitions you
got dreams,
So what's the big idea?

Welcome to my city, welcome to my world, if you really think you
can make then hang on to your soul,
It all comes down to favours and who or what you know,
Bending rules so slightly, being right when you're wrong,

In the right place at the right time in the right mind to blow
away the field,
What you need most of all is a big idea!

I sense the instinct, I sense desire, your motivation is something
we all recognise,
You're something special, something new, you're passion, fire and
anger is something we could use,

You wanna be the big man, you got big plans, big ambitions you
got dreams,
So what's the big idea?

You wanna be the big man, you got big plans, big ambitions you
got dreams,
So what's the big idea?
Take my advice keep it simple, keep it real,

Got to do the numbers, got to do the math, you could feather your
nest you might take a bath, maybe too hot blooded, you got to
be cold,
Bow down to the power do what your told
Till you're in the right place at the right time in the right
mind to blow away the field,

What you need most of all is a big idea!
