

## Whiplash

Fish

Hang a left, turn a right, we're driving through the night

    We're on the road with Fred

Any time, anywhere, we'll be sure to get you there

    That's the road with Fred

With his foot right to the floor, there's a corner coming on,

    Whiplash!

He'll overtake anywhere, he doesn't really care

    That's the road with Fred

Through rain, and snow, and fog, you sit and pray to God

    And place your faith in Fred

You've got to close your eyes, so you'll never get surprised

    By whiplash!

(a bridge)

Chew your nails right to the bone, you're on the wrong side of  
the road

    On the right side of Fred

A collision coming on, you pray the brakes are gonna hold

    On the road with Fred

A nut is loose behind the wheel, hear that rubber squeal

    For whiplash!

Hang a left, turn a right, driving through the night

    On the road with Fred

Any time any where, We'll be sure to get you there

    On the road with Fred

He's got a mobile telephone, but you pray that no one comes

    For whiplash.
