Fishbone

Lady luck and a four leaf clover Won't ease this hurt I feel all over My life was one big special occasion Until your leaving damp with the situation

Standing on shakey ground Ever since you put me down Standing on shakey ground Ever since you put me down

My car got respossessed this morning Hard times I haven't seen in years Girl you better thwor me a life preserver I'm about to drown in my own tears

Standing on shakey ground Ever since you put me down Standing on shakey ground Ever since you put me down
