

You're everything that I could dream
Every time you look at me
'make me feel like I'm queen of the world
You're so amazing it's insane
Can't find a single thing
I would even change if you were mine

But I don't wanna' love you
And I don't wanna' care
Cause if I go on and love you
And you go - what then?

I could so get used to this
--knowing what to expect
You never leave me guessing how you feel
You say "I Love You" every day
"Thank You" is all I say
'cause I'm afraid you're too good to be real

Don't wanna love you
No I don't wanna care
Cause if I go on and love you
You'll go

What then?
