February 1994

- coldest Valentine L.A.'s ever known  
All I gave you were tears without a cause  
And I don't know why I could not say  
The words inside my heart

I need you  
You are my life - I love you  
Heaven is mine - I want you I...want you I...  
Hear me  
More than my life I love you  
More than the sky I need you I...want you I...

All your roses - faded from the light -  
Hang in my window to remind me of the night  
I said nothing and you faded away  
I'd give anything  
To take back all the things I didn't say

I want you  
More than the sun I need you  
Heaven is mine - I want you I...want you I...  
Hear me  
You are my life - I love you  
More than the sky I need you I...want you I...

And I know that if you'd come to me  
Like you did before I'd love you  
-swear I would always need you  
You are my life  
I'd want you I - I'd need you I...  
Hear me  
More than my life I'd love you  
More than the sky I'd need you I...I want you I...
