

Heavens Time

Fisher

I'll say goodbye before I wake
And all you need to know is I'm done with pain
Forced to deny this hearts true faith
And thankful to God there's a hope for change

Heavens time you face alone
-never knowing what will become
Through all your fears you stay strong
-count yourself at Number One - at Number One

Blink of an eye - the year is new
I healed from the path that I crossed with you

Heavens time you face alone
-never knowing what will become
Through all your fears you stay strong
-count yourself at Number One

Don't you let them bring you down
