

## Now I Know

Fisher

When you looked down  
From your heaven and found me here  
You could see my heart was not quite right  
-Something missing in my life  
I didn't understand  
-Then I held your little hand

Now I know - Now I know  
I was waiting for you, Baby  
Now I know - Now I know  
How much my heart can love  
You filled it up with the touch of an angel  
- you have saved me from the emptiness - I'm not alone  
Now I know

I used to dream  
I'd hear a sweet voice down the hall  
Singing lullabies  
It seemed so real  
I'd wake up holding my pillow so tight  
-as I was kissing it good-night

Now I know - Now I know  
I was dreaming of you, Baby  
Now I know - Now I know  
You're the song inside my heart  
You bring me joy with the voice of an angel  
-you have saved me  
I can feel you now - I'm not alone  
Now I know

In all the world  
I can't believe  
You chose me to love for all time

Now I know - Now I know  
I was waiting for you, Baby  
Now I know - Now I know  
How much my heart can love  
You filled it up with the touch of an angel  
You have saved me from the emptiness  
I'm not alone  
Now I know  
Now I know
