

A Place for Us

Fitz and the Tantrums

There's a place for us
(Yeah there's a place for us)
Where only we can go
(Where only we can go)
So break down the door, knock out the lights
We're gonna be just fine
Cause there's a place for us
(Yeah there's a place for us)

To all those kings, we are the All those dreams now realized
A future ain't no guarantee
We're all just floating out at sea

Cause we're marching to the beat out in the open air
And we're just working pieces just trying to fit somewhere

Yeah, there's a place for us
(Yeah there's a place for us)
Where only we can go
(Where only we can go)
So break down the door, knock out the lights
We're gonna be just fine
Cause there's a place for us
(Yeah there's a place for us)

Cause we're marching to the beat out in the open air
And we're just working pieces just trying to fit somewhere

Yeah, there's a place for us
(Yeah there's a place for us)
Where only we can go
(Where only we can go)
So break down the door, knock out the lights
We're gonna be just fine
Cause there's a place for us
(Yeah there's a place for us)
