

## Cold

### Five Finger Death Punch

I'm gazing upwards, a world I can't embrace  
there's only thorns and splinters, venom in my veins  
it's okey to cry out when it's driving you insane  
but somehow, someday I'll have to face the pain

It's all gone cold  
but noone wants to blame  
it's all so wrong  
but who am I, who am I, to say

I'm begging for forgiveness, everything I've done  
if God is listening he knows I'm not the only one  
it's okey to lash out from the rules that I've enslaved  
but somehow, someday I'll have to turn the page

It's all gone cold  
and noone wants to change  
it's all so wrong  
but noone wants to blame  
it's all so cold  
there's nothing left to gain  
it's all so wrong  
but who am I, who am I to say

My heart's an endless winter, filled with rage  
I'm looking forward to forgetting yesterday

It's all gone cold  
and noone wants to change  
it's all so wrong  
but noone wants to blame  
it's all so cold  
there's nothing left to gain  
it's all so wrong  
but who am I, who am I to say

It's all gone cold  
and noone wants to change  
it's all so wrong  
but noone wants to blame  
it's all so cold  
there's nothing left to gain  
it's all so wrong  
but who am I, who am I to say
