

Fire in the Hole

Five Finger Death Punch

I have a knife in my heart, I could never explain
Cloned from a killer, I crawled out the drain
Dark from the start, there's a short in my brain
To some it may hurt but to me it's just pain

Regret it? Never...

Forget it, this ain't a game

Make him a target, I am ashamed (hide the shame)

Under the walk-in, I'll never be tamed

Open windows, closing doors

God can't help us anymore

Souls forever come and go

Burn all the bridges then fire in the hole

Ugly I can be, what you know about me?

I'm a pirate and a thief and you'll never fucking see

There comes a point in time, put it all out on the line

I'm gonna get mine I come to take mine

Regret it? Never...

Forget it, this ain't a game

Make him a target, I am ashamed (hide the shame)

Under the walk-in, I'll never be tamed

Open windows, closing doors

God can't help us anymore

Souls forever come and go

Burn all the bridges then fire in the hole

Burn all the bridges then fire in the hole

Ooh, let's - die

Let's - rise

Ooh, let's - die

Let's - rise

Whoa, whoa

Whoa, whoa

Open windows, closing doors

God can't help us anymore

Souls forever come and go

Whoa, whoa

Open windows, closing doors

God can't help us anymore

Souls forever come and go

Burn all the bridges then fire in the hole

Burn all the bridges then fire in the hole
