

I Refuse

Five Finger Death Punch

I don't wanna die alone
I don't wanna live forsaken
I refuse to let this go
Because my soul is breaking

I don't wanna let you know
That my heart is just so jaded
I refuse to let it show
I refuse to let it go

Wake me up when this is over
I'm tired of living life like its a dream
Please wake me up when its all over
I'm tired of living right here in between
I refuse

I've always walked alone
I chose the path less taken
I refuse to let you win
Life's a bitch and I've been shaken

Its not a joke at all
Inside my spirits fading
I refuse to take the fall
Cause no one cares at all

Wake me up when this is over
I'm tired of living life like its a dream
Please wake me up when its all over
I'm tired of living right here in between
I refuse

Cause at the end of the day I'm no you
I refuse

Wake me up when this is over
I'm tired of living life like its a dream
Please wake me up when its all over
I'm tired of living right here in between
Wake me up when this is over
I'm tired of living life like its a dream
Please wake me up when its all over
I'm tired of living right here in between

I refuse
