M.I.N.E (End This Way)

Five Finger Death Punch

Everybody hurts
Everybody bleeds
Everybody bends to fill a need
Everybody's born with their own curse
And I'm not alone

Everybody cries
Everybody breaths
Everybody wants to feel they're free
Deep inside I know what I am worth
A life of my own

It could have been much worse
But it should have been better

I know I'd hurt you, deserted you
And now I see it clear
I pulled you closer, tighter
'Cause I knew you'd disappear

I just can't compromise, apologize
There's nothing you can say
We both knew
It would always end this way

Everybody pains
Everybody grieves
Everybody's making off like thieves
Every soul's aching for release
You're not alone

Everybody lives
Everybody leaves
Everybody begs best on their knees
Everybody's got the same disease
No one's alone

It could have been much worse
But it should have been better

I know I'd hurt you, deserted you
And now I see it clear
I pulled you closer, tighter
'Cause I knew you'd disappear

I just can't compromise, apologize
There's nothing you can say
We both know
It would always end this way

Knew it'd end this way
We knew it'd end this way

I know I'd hurt you, deserted you
And now I see it clear
I pulled you closer, tighter
'Cause I knew you'd disappear

I just can't compromise, apologize
There's nothing you can say
We both knew
It would always end this way

We both know
It'd always end this way

We both knew
It would always end this way
