

## Walk Away

### Five Finger Death Punch

I'm sorry for the demon I've become  
You should be sorry for the angel you are not  
I apologize for the cruel things that I did  
But I don't regret one single word I said

Just walk away, make it easy on yourself  
Just walk away, please release me from this hell  
Just walk away, there's just nothing left to feel  
Just walk away, pretend that none of this is real

Forgive me if I told you that I cared  
Would you be sorry if I swore that I'd be there?  
Please forgive me for laughing when you fall  
I'm so sorry but I never cared at all

Just walk away, make it easy on yourself  
Just walk away, please release me from this hell  
Just walk away, there's just nothing left to feel  
Just walk away, pretend that none of this is, none of this is

Just walk away, make it easy on us both  
Just walk away, there was never any hope  
Just walk away, you already know the deal  
Just walk away, pretend that none of this is was, none of this was real
