65 Mustang

Five For Fighting

She's my time machine She's my rolling memory She's my family And I love her so She knows my secrets well

But her back seat won't ever tell She's no Jezebel, no

My '65 Mustang rides along Every mile's another song And what I don't remember She never forgets That little girl ain't let me down yet

It all comes back to me When I turn that horse's key And I'm 17 or 23 Or bringing home my first baby Like Dad did when the '65 was three, yeah

She's been four colors We've broken forty laws She goes where she wants No matter what the cost

No power nothing here AC's 2 by 75 Yeah, you got it man You roll'em down and drive

My '65 Mustang rides along Every mile's another song And what I don't remember She never forgets That little girl ain't let me down yet

It all comes back to me When I turn that horse's key I'm 17 or 23 Or bringing home my first baby Like Dad did when the '65 was three

Don't need to play no new CD's She's enough music for me I Don't need no new AC Cause she's cooler than I'll ever be

My wild Mustang She's waiting on me Ready to take us away Sail across the sea

When I'm on her back I'm the boy each man should be She's My Family Tree My '65 Mustang rides along Every mile's another song And what I don't remember She never forgets That little girl ain't let me down yet

It all comes back to me When I turn that horse's key And she roars to me, I'm 23 Or bringing home my first baby Like Dad did when the '65 was three

She's my family
