## **The Garden**

**Five For Fighting** 

Do you believe in the man in the garden Do you believe that he was there Do you believe in the man in the garden Do you believe or do you care Did he rise from the ashes and lead the sky above Did he lie in the name of love In the garden Do you believe in the path that you follow Do you believe it takes you where you want Do you believe in the lies that you swallow Do you believe it takes you where you go See the man. He never lies he never will Did he fight for the right to kill In the garden In the garden There's a little man in a house alone...waiting He doesn't lie. He doesn't wait for love to hold on to He doesn't lie. He doesn't wait Johnny's in the garden I see the err in my ways In the garden Do you believe in the man in the garden
