

Screams In The Night

Five Iron Frenzy

Screams in the night, screams in the night, screams in the night,
t,

Come on and scream out into the night!

Come on and scream out into the night!

I saw you in your backyard,

You were watering the dirt,

You began to scream and shout,

And shake the entire earth.

So I came over to help you,

But alas you were gone,

I felt so sad inside,

That I wrote this awesome song.
