

System Addict

Five Star

Take a look at me, wired to a machine
Never would believe it, this can't be happening
Boxes that go beep, little lights that leap
Tapping on a keyboard, what's happening to me

And when the electricity starts to flow
The fuse that's on my sanity got to blow

System addict
I never can get enough
System addict
Never can give it up, oh oh, no oh

Beauty or a beast, don't know which I see
Still I couldn't leave it
Fascination won't it cease

You know it's got the best of me
Sight and sound
Untangled in complexity all around

System addict (system addict)
I never can get enough
System addict (system addict)
Never can give it up, no oh

System addict
You've got the hardware habit

And when it gets to be too much,
Can't go on
I really need the human touch
But I'm too far gone
(yes, I'm too far gone)
(no, I can't go on)

System addict
I never can get enough (system addict)
System addict
Never can give it up

System addict (system addict)
(You got the hardware habit)
I never can get enough (system addict)
System addict (system addict)
(You got the hardware habit)
Never can give it up (system addict)
