

# System Addict

Five Star

Take a look at me, wired to a machine  
Never would believe it, this can't be happening  
Boxes that go beep, little lights that leap  
Tapping on a keyboard, what's happening to me

And when the electricity starts to flow  
The fuse that's on my sanity got to blow

System addict  
I never can get enough  
System addict  
Never can give it up, oh oh, no oh

Beauty or a beast, don't know which I see  
Still I couldn't leave it  
Fascination won't it cease

You know it's got the best of me  
Sight and sound  
Untangled in complexity all around

System addict (system addict)  
I never can get enough  
System addict (system addict)  
Never can give it up, no oh

System addict  
You've got the hardware habit

And when it gets to be too much,  
Can't go on  
I really need the human touch  
But I'm too far gone  
(yes, I'm too far gone)  
(no, I can't go on)

System addict  
I never can get enough (system addict)  
System addict  
Never can give it up

System addict (system addict)  
(You got the hardware habit)  
I never can get enough (system addict)  
System addict (system addict)  
(You got the hardware habit)  
Never can give it up (system addict)
