## **Closer To Me**

Constantly girl you're on my mind, and girl I think about you all of the time and even though words are hard to say, girl I miss you, never thought I'd feel this way.

If you keep on taking, my heart you'll be breaking so why do yo u do this to me? You know how I'm feeling it's you I believe in baby can't you s ee that I need you?

You know that it's true. Every time I see your face I miss you baby You know that it's you. I want to let you know you're driving me crazy. I'd do anything to help you to see, I don't think you understan d what you're doing to me. You know that it's true. Every now and then I want to call you baby. You know that it's you. I say a prayer that you'll come back to me lady. Oh yeah. Life ain't anything alone can't you see you're an angel in my e yes, everyday you're closer to me.

Nobody's there when I call your name, and nights are cold girl without your flame. But if I could girl I'd make you see. That I'm sorry, and that I need you here with me.

Every day reminisce with the past of a love that we thought would last. How we used to be when it was you and me. How did it all disappear so fast. There are days that I can't forget there are things that I now regret. I was there for you when you were there for me, and I was think in' we were set. Every night when I'm laying in my bed I hear your voice going round in my head, think of all the thin gs I could have done and all those things I could have said. I really will make it up to you I know now what I've got to do, It took time but now I've realised how much I'm missing you.
