Weak Spot

I heard he's got a weak spot for you He's gonna come Gonna come running right

I heard he's got a weak spot for you He's gonna come Gonna run, coming right back

I saw you try to hide, to hide He's gonna come running right back I saw his inside through his eyes The vision was circling black

Know you wanna, gonna get him Get him I know you wanna, gonna get him Slowly, you wanna pull him right

He's got you feelin' like you're found Deep down Rolling on your back, pussycat He's mine, swine I dare you, do me like that

I heard he's got a weak spot for you
