

# Goodness To Repentance

Flame

Yea... let me talk to you for a min  
You know I try to keep my ear to the streets right  
You know I hear so many war stories man  
I hear about so many times cats have been spared  
Cats should've been dead  
You'd think that would be enough for cats to turn to Christ  
But I guess sometimes you gotta learn the hard way

I done heard too many war stories  
Seen too many spared  
While God still sustain cats that don't even care  
Yea you should've got shot  
When dem bullets ricocheted  
Yea you shoulda got robbed  
But grandmamma went to pray  
Yea you shoulda got hit by that truck on the road  
Ain't no luck when you stuck  
With bullet holes in your clothes (homie bang bang)  
Five shots could drop me  
I took it and smiled  
That's a quote from Tupac  
Wow... look at him now  
Everyday cats duck, dodge, strays from a range  
You think it's simply that them shooters just ain't shooting with aim  
Naw, a Teflon vest  
Ain't the only thing that's stopping them bullets from eating through your chest

How many rappers got shot that's then died?  
How many rappers got shot that's alive?  
How many shots going bang bang?  
Cats trying to gang bang?  
How many trying to please God?  
God's goodness should lead men to the repentance (it should make you wanna change)  
Goodness should lead men to the repentance (it should make you wanna change)  
Goodness should lead men to the repentance (it should make you wanna change)  
Goodness should lead men to the repentance (it should make you wanna change)

50 Cent took nine shots look at his face  
If you look a lil closer you can see God's grace  
Lloyd Banks got shot drove himself to the doc  
Young Buck got shot but he's still on the clock  
Beanie Siegel got shot thank God he's alive  
To add to the list  
Fabulous got shot in the thigh  
Even Camron took one in each of his arms  
Are you alarmed? Is this enough to seek a reform?  
Even The Game got shot but he still breathing  
That's a real reason for people to seek Jesus  
Complete pieces to the puzzle to come  
When His goodness leads men to put their trust in the Son... yes

Listen...  
What does it take to make a man turn (repent)?  
When God has offered the opposite of everything that man's earned?  
You see God holds every breath

Of every lung that's in every chest  
Until it's time to be buried next  
His goodness should make us throw up our white flags  
Considering the fact that our souls have a price tag  
That only Christ could pay the whole with His life (Dag!)  
Then He rose while we roll in a nice jag  
Man, see every smile that you crack  
Every dollar that you make dirty God allowed that  
All the times that you said, man that should've been me  
It could've been me laying six feet deep  
All the chances that you had, man you should've been stopped  
When them cops stopped you, locked you in the handcuffs  
Now you scot-free  
And refusing to live Godly  
Though you want the benefits of being God's seed
