

## Gotta Notice

Flame

We've got truth that you've gotta notice  
To split seas like God and Moses  
Best believe He's watchin' motives  
Examine yourself then hand Him yourself  
He speaks life so I can breathe now  
Without Christ would have got the beat down  
Was blind but I can see now  
If you can too then you can move

First of all let me time myself  
To put me on a strict schedule and to remind myself  
Before I go to long without denying myself  
Cause everyday I should be dying and crucifying myself  
Yes homie and you should too  
Be inclusive to the newness that He's brewing in you  
And them communicable attributes that He's doing them through  
Cause if you guilty of the crime He's going to be suin' you too  
Ok that's why we gotta watch our motives  
Cause when God's speaking gotta watch them shoulders  
Cause we love to shrug them like we don't care  
But if you blind you can look but can't see no where  
So don't gamble with your soul like a casinos here  
Just slow down and watch ya actions  
Pick them again then lift Him up again and He'll draw all men from your actions

We've got truth that you've gotta notice  
To split seas like God and Moses  
Best believe He's watchin' motives  
Examine yourself then hand Him yourself  
He speaks life so I can breathe now  
Without Christ would have got the beat down  
Was blind but I can see now  
If you can too then you can move

See I can only watch T.V. to a certain extent  
Until I feel an urgent need to repent  
Cause even the commercial now are all converted and perverted with sin  
And you might slip if you ain't conversing with Him  
Cause when I saw myself  
Dawg I wanted to saw myself  
Immediately it grieved me and wanted to insult myself  
Whatever made me think to exalt myself  
Now He's gleaning and cleaning me and now I'm salt myself  
So what we living all reckless for  
Ever seen a Buick with a Lexus door  
That kind of whip will perplex a boy  
That's how it is when you don't consider what the text is for  
I ask the Lord to correct a boy  
And constantly making my calling and election sure  
Until we die we should rep the Lord  
For the same reason Paul got arrested for yo

We've got truth that you've gotta notice  
To split seas like God and Moses  
Best believe He's watchin' motives  
Examine yourself then hand Him yourself

He speaks life so I can breathe now  
Without Christ would have got the beat down  
Was blind but I can see now  
If you can too then you can move

You can still work out your faith with fear and tremblin'  
In fitted hats sincere in Timberlands  
If you examining and ain't sittin' there panicing  
Like a mannequin knowing you in need of an ambulance  
It's alright man to move and rock  
As long as you in love with God when the music stop  
I'm trying to see if we got some soldiers  
In the building repin' God Jehovah  
Or YHWH if it's better translated  
I bet you'll pass if you let a man grade  
What's that fam the test of life  
The test of righteousness in spite of the risk but if  
God be judge  
How would He see the grudge  
Would He see you or see His Son  
Ask yourself before Jesus comes  
Back like the slacks with pleats in the front

We've got truth that you've gotta notice  
To split seas like God and Moses  
Best believe He's watchin' motives  
Examine yourself then hand Him yourself  
He speaks life so I can breathe now  
Without Christ would have got the beat down  
Was blind but I can see now  
If you can too then you can move
