

He Did It Again

Flame

He did it, oh yes he did it
He did it, oh yes he did it
He did it oh
Then he believe in me
He has forgiven me
Yes your boy was lost
I was outta my mind
Refusing to come to the cross
Although it was crossin' my mind
I'm glad he saved me though
No tellin' where I would be
If I'd be dead or alive
But there is no goodness in me
And the truth I was chasin' my sin
And got to be desperate to take this on
Try to be left and this could be your song
They sold me by factor on decrease alone
It was His own sovereign choice
That He would snatch me up out of the grave
Took me up, turned me around, now I am saved

He did it again
He rescued me from sin
He did it again
He saved me now I'm born again
He did it again
He made me a part of his plan
Forget my misery, did it deliberately,
He has forgiven me, I got the victory

Back in position and ready to go
The enemy thought he had us in the bag
But if you a Christian then let the world know
That they can be free and be cool without that
But not only free, that they can be whole
He up on the tree for saving his self
That they can return and find a purpose
Take a return and finally know

Tell Him what day you are missin' out on
Tell Him His grace is efficient and strong
Love Him all day or you're missing on Him
Tell Him his grace is efficient and strong
Tell Him what day you are missin' out on
Tell Him His grace is efficient and strong
Tell Him what day you are missin' out on
Tell Him His grace is efficient and strong [x3]

He rescued me from sin
He did it again
He saved me now I'm born again
He did it again
He made me a part of his plan
Forget my misery, did it deliberately,
He has forgiven me, I got the victory

You don't know everything I have been through [x3]

What can I say but I'm thankful?
You don't know everything I have been through [x3]
You don't know you don't know [x2]

I was bowed and chained in darkness, the enemy had me, he had me
But you came with the keys and set me free
You didn't have to do it lord but I'm glad you did (I'm glad you did)
You could've past me by and let me dead in my seat
I'm so thankful grateful grateful
Praise your grateful thank you thank you
Hear somebody to save
What can I say but I'm thankful?

He did it again
He rescued me from sin
He did it again
He saved me now I'm born again
He did it again
He made me a part of his plan
Forget my misery, did it deliberately, He has forgiven me, I got the victory

You don't know everything I have been through [x3]
What can I say but I'm thankful? [x2]
You don't know everything I have been through [x3]
What can I say but I'm thankful? [x2]
