According to the Scriptures concerning the day of judgement
A hush will reign and every secret made public
A just God will justify and bring justice
Either the gnashing of teeth but Jesus people will love it
And when you study them Scriptures sin and death are the effects of the Fall
And each aspect is affectin' us all
So while God's looking down we look up and we laugh
But humanity's standing under the cup of His wrath
Since we seem to be so in love with reality shows
Then why is no one open to see what reality shows
Plus it's hard for me to even see the faith of atheists
Who believe we evolved from apes, in place of His Sacredness
Plus without Christ we're a guaranteed casualty

'Cause instead of watchin' our life we'd rather watch our calories I know the truth will irritate like an allergy I'm just tryin' to open up hopin' to show you reality

When truth hits the block the block should respond like "Who is Christ?" let's place Him in the Lime Light Forget later 'cause now dirty the times right The time is now the time is now
