

## Try Me

Flame

Try me (multiple times)  
Try me like I'm playing  
Try me (multiple times)  
Try me like I'm gone  
Try me like I'm playing  
Try me like I ain't walking out this stuff that I be saying  
Try me like I'm out here flexing flexing for you man  
Try me like I ain't really who I'm saying that I ain't him  
Try me like I'm playing  
Try me {Try me like I'm playing} [multiple times]

We so deep it's so out we been around for so long  
So when you try to shut us down but they end up getting rolled on  
They crucify our leader first then thought that they got rid of us  
In three days He cracked the grave and now there's centuries of us  
We're simple man we still sin but there a couple things that we won't do  
One is deny the Son hold Him back is number two  
We made it through the crusades we made it through the reformation  
Great sin great men but we endured through generations  
Through generations through generation Africa Europe Asia  
Every tongue every tribe all races all nations  
No this is not a game and never ever can it be  
The move is not some little clique but it's Christianity  
For now He rules internally the 6th day was detoured  
In Adam her life's lost in Christ her life restored  
The fourth kingdom will come as it is in heaven praying  
That the Lord will come quick try us we are not... playing

Try me like I'm playing  
Try me like I ain't walking out this stuff that I be saying  
Try me like I'm out here flexing flexing for you man  
Try me like I ain't really who I'm saying that I ain't him  
Try me like I'm playing  
Try me {Try me like I'm playing} [multiple times]  
Before I right a verse trying to sound cool or swagged out  
I been fast in all that let this man shout  
I ain't retired in awhile let me cash out  
Now I'm a gonna testify bring my past out  
I was living with no concern for my soul  
First in my block to rock west coast  
Rapping and trapping painful and lost  
The beats that he'd toss somehow was slow  
I was in it to win it I was fixing to get it  
Just give me a minute and I'm on  
But then I repented and this kid was delivered  
Now longer a child now I'm grown  
So liar liar pants on fire put em out  
Please desire His desire live it out  
Grown folks playing with the sword  
The 9-5 stretch was given for us to live it out  
Uh acting all big and bad like they ain't gotta give a count  
I beg to differ on the last day you get slain like Jack the Ripper  
Down to the lake of fire mister can't breathe up under that water flipper  
I run the way the God commands enlarge my heart to understand  
Gotta be B E perfect gotta be B E holy gotta let the Spirit control me  
Gotta be a little less fony if it is all that than the Spirit's up on me

Try me like I'm playing  
Try me like I ain't walking out this stuff that I be saying  
Try me like I'm out here flexing flexing for you man  
Try me like I ain't really who I'm saying that I ain't him  
Try me like I'm playing  
Try me {Try me like I'm playing} [multiple times]

Young Noah I don't understand Flame why they calling us hypocrites  
Flame: Why because they seen the views and lifestyles that contradict  
Young Noah: But we ain't out here flexing man we unashamed we walking this  
We trying to be the alternate Jesus Christ is ultimate  
Flame: But often it's the opposite it's obvious they never met Him  
Cause if they did I'm positive they'd positively represent Him  
Cause if they truly saved then the Holy Spirit is living in em  
We all whack the only difference is all the Christians is saved sinners  
Young Noah: So basically what you saying is what I need to praying is  
That God would make me like Him to be a light and invite them  
Flame: Absolutely Excellent That's what I'm saying  
Let your lips and life say "Try me I am not playing"
