

# We Preach Christ

Flame

(Speaking)

Yeah

I got a couple of questions for you real quick

I want you to think on these questions, man

If you were dyin' of thirst

And I offered you some water to drink

How hard would you think

Before you fought to grab my glass (you wouldn't think)

But if I told you your sin stinks

But said you could still drink

My water if you turn from your past (then you'll think)

And look to the present and

Look to the Father through Jesus Christ

Would you still want a sip of my water (ask yourself)

Or would you die dehydrate

Because of your mind state

Don't wanna just leave your sins on the altar

Listen

I found that cats do wanna be saved

But we wanna be saved from our consequences (that's what we want, man)

Cause we play in our sin

Cause we stay in our sin

So I pray how can I convince this (what can I say, Lord?)

Generation of men

Generation of women

That we sinners in need of a transplant

In the heart I mean

Cause it's dark Hakeem

Naw I mean would you please understand that

We preach Christ

In His fullness, dawg

In His fury and endless love

Seek Him now you can know Him as Savior

Seek Him later you'll know Him as Judge

We preach Christ

In His fullness, dawg

In His fury and endless love

Seek Him now you can know Him as Savior

Seek Him later you'll know Him as Judge

If you were starvin' to death

And I came to your house with a meal

How long would you chill

Before you fought to grab my food (not long)

But if I told you your sin stinks

But said you could still eat

My meat if you turn to His truths (question)

Or would you starve and die

Would you crawl and cry

Cause you really love cars and shoes (think about that, man)

Or would you kill your pride

And then spill to God

"my sin nature's got me singin' the blues"

Listen

I know young dudes who hate to live

I know girls who know where their rapists live (now that's pressure)  
And they hate this life and won't take to Christ  
So they keep tryin' to escape with pills  
This is real that's why I preach with passion  
Cause my cousins Nick, Dennis, and Galisha is askin' (what they askin' man?)  
"Am I weak if I don't run the streets and look neat in my sneaks and expensive fashion?"

We preach Christ  
In His fullness, dawg  
In His fury and endless love  
Seek Him now you can know Him as Savior  
Seek Him later you'll know Him as Judge

If you were born in sin  
And the Father sent His beloved Son  
Would you surrender to Him  
Or would you stay on the run (we're born sinners)  
Or would you stick with your block  
Listenin' to the rock  
Speak slop just to chief with your duns  
Listen  
Your whole life is like a walkin' abortion  
You ain't even had a chance to live (you ain't even had a chance to live )  
I got fam man This'l and J-son  
If not me listen to my mans and nem (if not me listen to my mans and nem)  
We certified teachin' people  
Who ain't scared of God call us evangelists (call us evangelists, man)  
Until we die preachin' that Jesus is God  
Please listen to our stanzas kid yo

We preach Christ
