All We Have Is Now

Flaming Lips

As logic stands you couldn't meet a man Who's from the future But logic broke as he appeared he spoke About the Future "We're not gonna make it" He explained how the end will come - you and me were never meant to be part of the future -All we have is now -All we've ever had was now All we have is now All we'll ever have is now I noticed that he had a watch and hat That looked familiar He was me - from a dimension torn free Of the future "We're not gonna make it" He explained how the end will come - You and me were never meant to be part of the future -

All we have is now -

All we've ever had was now

All we have is now

All we'll ever have is now -

All we have is now -
