

Ashes in the Air

Flaming Lips

You and me
Were both so fucked in the good way
And I'm fucked up in the bad
You and me
We thought we were so smart
We tough we could out run them
But that had robot dogs
You and me
Were both in the same hole
But you dream of wars of loaving
And I get used to the cold

You and me
We had a sudden thud
But you ran in to save them
Am I didn't give a fuck
You and me
Our egos mape from fires
Burning and our flosch off
Till we're skeletons duelling with wires

You and me
Saw the light of the ship get crossed
But is up above us
It left us were we was
You and me
Have learned that love is true
If you ask me how I know it
I'll never lie to you
