

## Be Free, A Way

Flaming Lips

Did good, baby  
So we can go  
The time right now  
Thing is

The sun shines now  
But we're so alone  
It's not, tis not  
The light  
That shines

The way, away  
My heart can beat  
Be free and go  
Our days  
Are empty

Is the love the god  
That we control?  
To try to trust  
The pain

The sun shines now  
But we can't see  
Its light lights now  
We live  
The same

Be free, away  
But how can we  
Find ours to hold?  
A place  
(2x)

A place away  
Away  
Away  
Away  
Away
