

## Free Radicals

Flaming Lips

You think you're so radical  
I think you oughta stop  
(Say what)  
But you're going international  
They're gonna call the cops  
(No, no, no)  
You're turning into  
A poor man's Donald Trump  
I know those circumstances  
Make you wanna jump  
Oh no

You think you're radical  
But you're not so radical  
In fact, you're fanatical  
Fanatical

And you think you're a radical  
But you're not so radical  
In fact, you're fanatical  
Fanatical

I'll tell you right now  
You oughta change your mind  
(Yes)  
All of your friends are  
Standing in line  
They're getting tired of  
You're at it too fast  
Without all your bodyguards  
How long would you last  
Not long

You think you're radical  
But you're not so radical  
In fact, you're fanatical  
Fanatical

And you think you're a radical  
But you're not so radical  
In fact, you're just fanatical  
Fanatical

And you think you're a radical  
But you're not so radical  
In fact, you're just fanatical  
Fanatical
