

# Garden of Eyes/Forever Is a Long Time

Flaming Lips

The first thing that you see  
Is a screen on my TV  
It's a place that's hard to find  
You can leave your body behind

Now we really feel it  
It comes to us like air  
And everybody borrows it  
And leaves it everywhere

Forever is a long time  
Forever is a long time  
Explodin' in your mind  
Forever is a long, long  
Time is uneven forever and ever  
Time is uneven forever and ever

The things we said yesterday  
All gone far away  
The things we said today  
Will be here forever

Forever is a long time  
Forever is a long time  
Explodin' in your mind  
Forever is a long, long  
Time is uneven forever and ever  
Time is uneven forever and ever

Now we really feel it  
It comes to us like air  
Everybody borrows it  
Leaves it everywhere

Forever is a long time  
Forever is a long time  
Explodin' in your mind  
Forever is a long, long  
Time is uneven forever and ever  
Time is uneven forever and ever
