

## Goin' On

Flaming Lips

We hold our breath 'till the morning comes  
And the last the sun shines through  
But the night's so hard and it seems impossible  
But what else can we do?

Goin' on  
Goin' on

Listen, you'll hear it  
We're gettin' near it  
It's gone and I can feel it  
'Cause I know you are going away  
Listen you'll hear it  
We're gettin' near it  
I know i really fear it  
But we pretend it's just another day

Goin' on  
Goin' on

We tell ourselves it's all just normal  
The worst of it is gone  
And you get up  
And you get up  
And you just cant take it  
How we keep goin' on  
Goin' on  
Goin' on

Listen, you'll hear it  
We're gettin' near it  
It's gone and I can feel it  
'Cause I know you are going away  
Listen you'll hear it  
We're gettin' near it  
I know i really fear it  
But we pretend it's just another day

Goin' on  
Goin' on  
Goin' on  
Goin' on  
We're goin' on
