Goin' On

Flaming Lips

We hold our breath 'till the morning comes
And the last the sun shines through
But the night's so hard and it seems impossible
But what else can we do?

Goin' on
Goin' on

Listen, you'll hear it
We're gettin' near it
It's gone and I can feel it
'Cause I know you are going away
Listen you'll hear it
We're gettin' near it
I know i really fear it
But we pretend it's just another day

Goin' on
Goin' on

We tell ourselves it's all just normal
The worst of it is gone
And you get up
And you get up
And you just cant take it
How we keep goin' on
Goin' on
Goin' on

Listen, you'll hear it
We're gettin' near it
It's gone and I can feel it
'Cause I know you are going away
Listen you'll hear it
We're gettin' near it
I know i really fear it
But we pretend it's just another day

Goin' on
Goin' on
Goin' on
Goin' on
We're goin' on
