

# Psychiatric Explorations of the Fetus with Needles

Flaming Lips

Cat killing dogs, pigs eating rats  
Every mouth will eat you up the king bug laughs  
Belly of the heart belly full of bats  
The chromosomes seem not to want the fetus...

They beat you up  
They make you leave  
Sticking needles in your knees  
Knowing God will be pleased  
Should make it easy

Snakes eating frogs, toads eating gnats  
When the space ship beams you up boy, get drunk fast  
Rubber bullet barn, titty suckin calf-  
Goats and roosters bees and bugs amoebas!!

They blow you up, make it breath  
Make it feel like a disease  
And though it's hard to believe it makes it easy.
